Subject: RE: MS training

I agree with Chuck that we should develop and plan in early September for how we will train anyone interested in Mass Spec. This will be an incremental process of training, documentation and probably split sample analysis. I look forward to reducing the number of analysts who need to testify per case.
Julie

Subject: RE: MS training

Hello All, Several chemists have asked about training and working in Mass Spec. Because of vacations and confused schedules I would like to wait until the end of summer before we decide on new duties. I will discuss what will work best for the Laboratory with Julie, Peter Della, and Michael, and then we can make some changes. Thanks Chuck S.

Subject: New evidence office help

Hi Everyone,

As you are all aware we had to say good bye to Kathleen our 4th and final temp. However, we are not going to be without someone to help pull court data and maintain the database of summons. On Monday, Janice Zannoli from the 4th floor will be joining us. Janice has worked for more than 10 years upstairs and will be joining us permanently and full time. Her hours are going to be 8-4.

At this time she will be taking over the responsibilities that Kathleen had. The mechanism by which you have requested

data in the past will remain the same. Summons' will be distributed in the same manner that Kathleen did, with all chemists involved noted at the top of each summons. Long term plans are for Janice to assume other evidence office responsibilities.

If anyone has any suggestions or concerns regarding court data/summons distribution please let me know. In the meantime please welcome Janice to the lab. I'll be bringing her around on Monday to meet everyone.

Thanks,

Betsy
